Will not some one start a beef-soup house at this place? The only capital necessary to do this is the building of a small adobe furnace and the purchase of two or three chaldrons; the ingredients are at hand to be used free of cost.

At a meeting of the cattlemen held at Springville, on the 18th inst., it was arranged that the rodeoing on the east side of the Little Colorado river shall commence on the morning of the 20th of May, at the Lower Cienega Amarilla, working from there to St. John, and from there up the Coyote creek to the mountains. It was further decided that the general round-up (as organized in Holbrook) proceed down the river from the above-mentioned point, which will be about the 25th of May. In 1890 the general round-up on the "24" range was little more than a private one as

there were only two men to represent all foreign brands. Considering how heavily stocked the range is adjoining the headwaters of the Colorado river, of which fact the heavy death-rate of cattle this winter gives abundant proof, it would seem that at least once a year all cattle should be gathered and driven to their home ranges.

A very sudden death occurred on the 15th inst., at Woodruff, in the western part of this county. Homan West, a civilized Indian, in the employ of Mr. John Reidhead, of that place, while at work on the dam, was suddenly seized with a hemorrhage, bleeding at the nose and mouth, and in less than ten minutes he expired. A coroner's jury was empaneled, under the direction of James Dean, Esq., and after hearing the statements of witnesses, returned a verdict in accordance with the above facts.

Mrs. Million's Ride.

When Mrs. Million goes to ride she travels forth in state,

Her horses, full of fire and pride, go prancing from the gate;

But all the beauties of the day she views with languid eye,

Her flesh in weakness wastes away, her voice is but a sigh.

For Mrs. Million is in an advanced stage of catarrh, and all the luxuries that wealth can buy fail to give her comfort. She envies her rosy waiting-maid, and would give all her riches for that young woman's pure breath and blooming health. Now, if some true and disinterested friend would advise Mrs. Million of the wonderful merits of Dr. Sage's Catarrh Remedy, she would learn that her case is not past help. \$500 reward is offered by the manufacturers for a case of catarrh in the head which they cannot cure.

Protect Your Health.

Cold and moisture combined have a torporising effect upon the bodily organs and the digestive and secretory processes are apt to be more tardily performed in winter than in the fall. The same is true, also, of the excretory functions. The bowels are often sluggish, and the pores of the skin throw off but little waste matter at this season. The system, therefore, requires opening up a little, and also purifying and regulating, and the safest, surest and most thorough tonic and alternative that can be used for these purposes is Hostetter's Stomach Bitters. Persons who wish to escape the rheumatic twinges, the dyspeptic agonies, the painful disturbances of the bowels, the bilious attacks, and the nervous visitations, so common at this time of the year, will do well to reinforce their systems with this renowned vegetable stomachic and invigorant. It improves the appetite, strengthens the stomach, cheers the spirits, and renovates the whole physique.

You are in a Bad Fix

Sent (sealed) free, by addressing Dr. Parker's Medical and Surgical Institute, 151 North Spruce St., Nashville, Tennessee. They guarantee a cure or no pay.—The Sunday Morning.

This bridge to be of iron or steel, in one span, with a roadway about twelve feet wide; the north end set on abutments of dressed stone laid up in lime mortar; the south end to rest upon either an abutment of masonry, piles or on hollow iron cylinders sunk to bed rock and filled with cement and rock; floor of bridge to be at least eight feet above high water mark. Approaches to this bridge will be furnished by the county. Estimated length of bridge, 125 feet, more or less.

One at or near Woodruff, across the Little Colorado river. This bridge to be of iron or wood, in one span from pier to pier; piers to be set outside high water mark, and built of stone laid in lime mortar. The approach on west side from bank to west pier to be a single span. Estimated length of first span, 80 feet; of second span, 30 feet.

Contractors will be required to furnish with each bid a complete plan of the bridge they propose to erect, giving the style of bridge, size of timbers or other material to be used, and of abutments and how erected, etc. The successful bidder will be required to give a good and satisfactory guarantee to Apache county against the loss of each bridge by either floods or fault of construction. Payment will be made in general fund warrants of Apache county.

The Board reserves the right to reject any or all bids. Bids should be sealed and marked, "Proposals for Bridges," and addressed to the Clerk of the Board at St. Johns, Arizona.

Bidders desiring more specific information as to sites or other requirements of this proposal can obtain all necessary information and instructions from Jesse N. Smith, Snowflake; F. T. La Prade, Winslow, or Will C. Barnes, Holbrook, who have the matter in charge for the Board.

By order of the Board of Supervisors.
